SUMMARY OF QUALIFICATIONS

- Passionate Associate Backend Developer with a strong focus on data modeling, business logic, and database management. Possesses foundational programming skills and cross-functional exposure to modern frontend frameworks like Next.js, Nuxt, and Flutter.
- Demonstrated leadership and project management skills through successful development and deployment of applications in various academic projects.
- Consistently recognized for academic excellence and potential in science and technology.

EDUCATION

Visayas State University

Bachelor of Science in Computer Science

Baybay City, Leyte

2022 - Present

Seguinon Stand Alone Senior High Schools

Science, Technology, Engineering and Mathematics Strand

Seguinon, Albueva, Leyte

2020 - 2022

TECHNICAL SKILLS

- **Programming Languages:** C, C++, C#, Dart, Java, JavaScript, Typescript, Python
- **Frameworks & Libraries:** Flutter, Next.js, Nuxt, React, Vue.js, Tailwind CSS
- **Technologies & Tools:** Firebase, Git, Weka, VS Code,

PROJECT EXPERIENCE

USSC CONNECT (2026)

Lead Backend Developer | Web-Based Attendance and Clearance Management System

Tech Stack: Next.js, React, Firebase

- Developed a web-based application using Next.js to streamline and enhance program and event management for the University Supreme Student Council of Visayas State University.
- Led backend development, establishing a scalable architecture to optimize data management and application efficiency.

Eduvate (2025)

Test Engineer | Mobile-based Mentorship Application

Tech Stack: Flutter, Firebase

- Developed a mobile application using Flutter to streamline and enhance the mentorship program of the VSU Computer Science Students Society.
- Led the testing phase, ensuring deliverables were high-quality and aligned with project requirements.

VSU-LHS Connect System (2025)

Full-Stack Developer | Web-based Application for VSU-LHS Guidance Facilitation

Tech Stack: Nuxt, Javascript, Vue, Firebase, HTML, Tailwind CSS

- Developed a web-based system to streamline and digitize the manual guidance facilitation process.
- Designed the data-model and implemented backend with firebase while contributing to a seamless user experience by implementing intuitive front-end interfaces, strictly adhering to the project's defined UI/UX design.

LEADERSHIP EXPERIENCE

Alliance Software Incorporated (Cebu, City) – 2025

Project Manager Intern (On-the-Job Training)

- Led a team of interns in developing a software project under strict, fixed deadlines.
- Managed project timelines, task allocations, and workflows to ensure on-time delivery.

HONORS & INVOLVEMENT

College Honor and DOST JLSS Scholar

- Awarded for exceptional academic performance in the Computer Science program and recognized for potential in science and technology.

Consistent Honor Student in STEM Strand

- Demonstrated exceptional performance in analytical and technical subjects.
